Flame
Retardant ABS

NEARITY ASP100 is a loudspeaker that provides enterprise sound in the room. By working with NEARITY DSP AMX100, ASP100 gives the best audio quality to any conference.

Product features

Flush mounted, fits the installation environment perfectly

ASP100 can be installed in the ceiling and integrated with the meeting room without affecting the style of the meeting room.

Sealed back cover design. Extends the service life of the equipment

The back cover design strengthens the sealing, which can effectively protect the internal parts of the speaker, prevent leakage, rats and insects, and moisture.

Intelligent anti-feedback design, ensuring sound quality

Reject distortion, reject voice feedback, and ensure clear voice output.
