

The WVH-EPL Transmitter Enables to Switch between VGA and HDMI Inputs

Extend Crystal-clear video to AV equipment

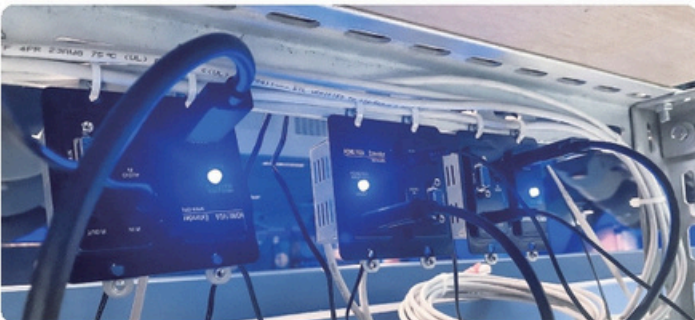

- Switch between VGA and HDMI video sources by the WVH-EPL (Tx) and transport the video stream to the WVH-EPR (Rx)
- Support up to 4K2K/60Hz 4:2:0 (HDMI input) and 1080P/60Hz 12bits (VGA input)
- Adopt HDBaseT™ 2.0 technology to safeguard trustworthy signal management.
- Allow transmission of 4K UHD video, HD audio, 2-Way IR, RS-232, PoE (Power over Ethernet) up to 100 meters.
- Equip the anti-interference ability of radio communication
- Native integration with the WVH-EPR (Optional Rx)

Testimony

The device connects to the current A/V equipment to deliver video transmissions over a long distance. We can impress those who visit the theme park with the magic of STARE 3D projection mapping.

Specifications

Product Family	WVH-EPL	WVH-EPR
Input	1 Port HDMI Female (4K2K/60Hz 4:2:0) 1 Port VGA Female (1080P/60Hz 12bits)	No
Output	No	1 Port HDMI Female (A-Type)
Power over Ethernet (PoE)	Yes	No
Connectivity	Cat5/5e/6 Cable	
Connection Distance	Up to 100 meters
