NearStream APS10 is a portable speaker designed to accompany you everywhere, enhancing your music experience on the go. Crafted to keep pace with your active lifestyle, this speaker ensures your tunes always sound superb. Additionally, you can connect multiple speakers together to amplify your music. It is the perfect musical sidekick for both days out and nights in.

Product features

High quality Audio

Experience premium audio like never before with high-fidelity full-range speakers and precision-tuned Digital Signal Processing (DSP), meaning you can enjoy fine-tunes and optimize the sound for an exceptional listening experience.

Pair with Multiple APS10 speakers for more sound

Connect multiple APS10 speakers for an immersive audio experience that fills any space. Enjoy rich, synchronized sound that elevates your gatherings, delivering powerful, detailed soundscapes for unforgettable moments.

Built to go, bring your music anywhere

Crafted for on-the-go enthusiasts, APS10 takes your music to the beach, hiking trails, or backyard gatherings effortlessly. Enjoy uninterrupted, high-quality sound wherever you roam, ensuring your favorite tunes are always by your side.

Easy connecting, easy listening

Connecting APS10 is a breeze, ensuring a seamless and hassle-free setup for your listening pleasure. With intuitive pairing features, enjoy swift and effortless connections, enabling you to dive straight into your music without delays.

Long battery life

Experience the freedom of continuous usage with an impressive battery life of up to 15 hours per charge, ensuring your device keeps pace with your day's activities. Whether it's a full day of outdoor adventures, work, or leisure, our long-lasting battery ensures uninterrupted enjoyment without the need for frequent recharging.
